INDIANA
tours

SUBARU OF INDIANA AUTOMOTIVE PLANT TOUR

Tour the plant where Subaru of Indiana Automotive produces the Outback, Legacy, Tribeca, and the Toyota Camry. Learn about the factories green initiatives including how they became the first U.S. auto assembly plant to be designated a Backyard Wildlife Habitat by the National Wildlife Federation and to achieve ZERO LANDFILL. Find out what efforts they make to continually fulfill their environmental policy of eliminating all environmental risks in their operations.

PURDUE GREEN ORGANIZATION TALK

Enjoy a talk and discussion about environmental issues from a student or faculty member of one of Purdue's many environmentally focused organizations. Find out what they are doing on the cutting edge of the Green Movement and what you can do to be a part of it. See reverse side for currently participating organizations.

WIND FARM TOUR

Tour one of western Indiana's wind farms. Find out what makes this area ideal for this green power generation and what makes the massive windmills work.

Completely Escorted:

A Professional Escort from Educational Destinations will be with your group throughout your trip to insure that the entire experience is fun and educational.

Lunch Included on All Tours:

A boxed lunch will be provided as part of your tour.

From \$30 Per Person Plus Transportation*

**Pricing requires a minimum number of passengers. Subject to change without notice. Certain restrictions apply.*

CURRENTLY PARTICIPATING ORGANIZATIONS

Purdue Solar Racing - PSR is a student organization committed to building and racing competitive solar powered vehicles. They are currently working on building their 8th car since the club began in 1991. Their most recently completed car, PULSAR, competed in the 2008 Shell Eco-Marathon, winning the solar division with an energy usage equivalent to 2861.8 mpg.

Purdue Energy Club - The Purdue Energy Club is a multi-disciplinary team, research-based club which seeks to solve the world's most complex energy challenges. The club's most recent initiative is to investigate LED lighting, as a means to improving Purdue Campus sustainability.
