

TOP STEM DESTINATIONS: London, England

If your students are ready to learn about the world of secret drawings, codes and hidden messages at Bletchley Park, participate in a hands-on introduction to computing history at the National Museum of Computing, or learn how science and technology are used in the British campaign for the America's Cup, Educational Destinations will make your London STEM trip rewarding and memorable. Home of the Royal Family and a leader in the arts, commerce, education, fashion, finance, healthcare, media, professional services, research and development, transportation, and entertainment, this British capital contains a treasure-trove of educational STEM opportunities. Try the London Bridge Experience or a workshop at one of London's many museums. London, England has so much to offer your students that are ready to open their minds to STEM.
