

TOP STEM DESTINATIONS: St. Louis

If your students are ready to discover the many surprising ways energy exists in our world at the St. Louis Science Center, participate in the Great Rocket Design Challenge and the Wind Turbine Design Challenge at the Challenger Learning Center, or explore exhibits and education on marine life and preservation at the World Aquarium, Educational Destinations will make your St. Louis STEM trip rewarding and memorable. Learn about the Maryville Science and Robotics Program, catch a planetarium exhibit of rovers and landers on Mars, go on simulated space missions at the Challenger Learning Center - St. Louis, or fuel your student's interest in STEM Education and future STEM careers at The Academy of Racing and Science. These opportunities along with grand museums, and engaging attractions make this a perfect destination. St. Louis has so much to offer your students that are ready to open their minds to STEM!
