

# TOP STEM DESTINATIONS: Washington, D.C.

If your students are ready to learn about droughts, sea levels, glaciers and ice caps through an interactive Earth Lab exhibit at the National Academy of Sciences, explore the National Geographic Museum rotating exhibitions or learn about sustainable farming techniques at the University of the District of Columbia, Educational Destinations will make your Washington, D.C. STEM trip rewarding and memorable. Encourage your students to build homo-polar motors while learning about electricity and magnetism at the National Electronics Museum. Using basic electronics, everyday objects and some creativity, students are challenged to create a signaling device in a Spy Science workshop at the International Spy Museum. While in D.C., enjoy the grand museums and engaging attractions. Washington, D.C. has so much to offer your students that are ready to open their minds to STEM!
